Andrea Price

Hi!

I'm **Andrea Price**, an illustrator and sketchbook artist, based in Germany.

I also hold a degree in architecture, and in 1997 I drew my thesis meticulously by hand and in ink. I now draw and paint both on paper and on the iPad, plein air and in the studio, always intuitively, recently increasingly without a template or reference.

My aim is not to recreate reality, but to instill something uniquely new. I love to find ways to distort reality, sometimes even to the point of absurdity.

I really enjoy what I do. That joy in the creation process is my fuel and I like to think it's conveyed to anyone who looks at it.

My artwork is available both to buy and for licensing, and I welcome commissions, collaborations as well as freelance work.

If you are interested in working with me, please get in touch! I'd love to hear from you :)
